

## COAL CASES GO OVER TO JANUARY TERM

**Federal Judge Says Palmer Has Come Mighty Close To Contempt of Court**

Indianapolis, Ind., Nov. 9.—Trial of the soft coal conspiracy cases against 125 operators and miners in Indiana, Illinois, Ohio and western Pennsylvania was continued Monday until January 10 by Federal Judge A. B. Anderson.

When the cases were called for trial government counsel said it was not ready to proceed and Judge Anderson immediately undertook an investigation of Attorney General Palmer's connection with them, an effort being made to learn what orders the attorney general had given regarding the scope of the government's evidence.

In setting January 10 as the date for the trials Judge Anderson declared that meanwhile he would "at least find out whether we are governed by law or by person." His remark was intended apparently to apply to Mr. Palmer, whose actions, the judge also asserted, were "strangely close to the compounding of a felony" and "dangerously near contempt of court."

Attorney General Palmer's orders not to use certain evidence in the soft coal conspiracy cases were interpreted as possibly nullifying the government's case by attorneys for the government in the case, testifying before Judge Anderson.

C. B. Ames, former chief assistant attorney general, appearing as a friend of Mr. Palmer however, declared that the attorney general's instructions had been misunderstood generally and that evidence be ordered excluded was that relating for a period of time covered by the conspiracy indictment.

## WINNES AND NEGRO HAVE PRELIMINARY

Harlan, Ky., Nov. 9.—Following his rearrest on the second warrant after his release Saturday on a writ of habeas corpus, Dr. H. C. Winnes, state veterinarian, was placed on examining trial here Monday afternoon, as was Jim Robinson, negro convict. Both are held on warrants charging murder of Miss Laura Parsons, Pine Mountain school teacher outraged and killed as she was walking over the mountain September 7.

The second warrant against Dr. Winnes was sworn to by Senator Hiram A. Brock shortly before the examining trial of Robinson was to have begun.

## FLOUR BELOW \$10 FIRST TIME IN FOUR YEARS

## TO THWART SOVIET MISSIONARIES COMING

Washington, Nov. 9.—Precautionary measures will be taken by the state department to block what American diplomatic agents in Europe characterize as determined efforts of Soviet Russia to send "missionaries" and agitators to the United States. Consuls at European ports, the state department today said, were instructed to issue only passports to persons about whose intention there is not shadow or doubt.

## NO FURTHER PRIVATE RY. CONTROL, IT IS SAID

Washington, Nov. 9.—America will never again have private control and operation of railroads unaccompanied by state and federal regulation, Chairman Clark, of the Interstate Commerce Commission, declared in an address today at the opening of the convention of the national association of railway and public utilities companies. Referring to federal control of railroads, Clark declared the people paid a handsome sum for the use of the railroads, but out to be considered as a necessary war expense.

Wholesale prices for spring and summer delivery at 10 to 33 1-3 per cent under prices of a year ago, according to a showing made at the convention of the United National Clothiers here today. "The public is not buying and the dealers are overstocked," said Treasurer Mohr. "Prices must come down," he added.

## LEXINGTON MAN KILLS NEIGHBOR

(By Associated Press)

Lexington, Ky., Nov. 9.—Bert Tudor, 30 years old, today shot and killed his neighbor, Robert Hanley, 32. Tudor's statement to the police indicated that Hanley had violated Tudor's home.

## Incendiary Blaze At Louisville Tuesday

(By Associated Press)

Louisville, Ky., Nov. 9.—Fire early today damaged the new Louisville Rendering Company's plant on the river road, about \$60,000. The fire was of incendiary origin. About two weeks ago fire destroyed a portion of another plant of the company, entailing a loss of \$60,000. Former State Senator Charles Knight, president of the concern, called a meeting of the officers to investigate the fire today.

## Harding May Leave For Panama November 18

(By Associated Press)

Point Isabel, Texas, Nov. 9.—Outwardly care free as the happiest members of this little community of fishermen who are his neighbors here, President-elect Harding today began his vacation which he hopes will make up for loss of rest during his campaign. November 18 has been selected for his departure from New Orleans for Panama, but this may be advanced.

The division is stationed at Camp Travis, Tex., is short six thousand men.

## \$50,000 Fire Burns Middleboro Block

(By Associated Press)

Middleboro, Ky., Nov. 9.—Fire of undetermined origin caused an estimated damage of \$50,000 here early today. The Belle Cash Store and Royal Palace restaurant were destroyed and the Louisville and Nashville offices in the Brashear-Schultz building, damaged.

## Returns From Tennessee

(By Associated Press)

Memphis, Tenn., Nov. 9.—An official canvass in the Eighth Tennessee district gives Lon Scott, republican, a majority of 638 votes over his democratic opponent, Gordon Browning. On the face of unofficial returns, this fixes Tennessee's delegation in the House at five republicans and five democrats, a republican gain of three.

## RADICAL CHANGE IN BASE BALL

**New 12-Club League Organized Under Strict Control To Purify Game**

Chicago, Nov. 9.—The major baseball leagues Monday were broken up and a new twelve-club league composed of the eight National League clubs and the three from the American League which have sided with them in the plans for the reorganization of the game was organized. A twelfth member will be chosen later, it was announced.

Organization of the new league came after the five American League clubs had refused to reply to an ultimatum issued by the other eleven clubs, giving them an hour and a half to join in the reorganization.

After organizing the new league, the baseball magnates proceeded with the Lasker plan for civilian control of professional baseball and appointed Judge Kenesaw M. Landis, of Chicago, chairman of the tribunal which will govern the game.

Judge Landis, if he accepts the position, will be the supreme dictator of all leagues joining the plan and will receive a salary of \$50,000 a year.

Second and third members of the tribunal will be appointed later and one of them will be chosen by minor leagues. Representatives of the new league left Monday night for Kansas City, where the National Association of Minor League will meet today to present the proposition to them.

The minor league member would serve for six years, while Judge Landis would be given a contract for seven years, according to a statement made after the meeting of the club owners.

## THE NEW WAY TO HARVEST TOBACCO

The newly paved streets are being Washington, Nov. 9.—An experiment in tobacco harvesting which is said to have been successful in saving millions of dollars, has been tried in North Carolina, and may prove to be worth the attention of tobacco growers in Kentucky. The United States Department of Agriculture, in describing the experiment, says:

"A saving of from \$1,000,000 to \$2,000,000 has been effected by tobacco growers of Granville county, N. C., this year by the adoption of a new method of harvesting."

"The new method makes 'both ends of the plant work.' Instead of cutting the stalks, as has been the general practice in the old, old belt district, the leaves are picked from the stalk as fast as they ripen, working from the lower leaves upward."

"Under the old system the lower leaves would be allowed to remain on the stalk until the top ones were ripe, causing a loss of about 25 per cent through deterioration of the lower leaves, which make the best smoking tobacco."

"Under the new method it is not necessary to 'top' the plants so low, making the leaves less subject to 'wildfire.' The total amount of work is little more, and labor that otherwise could not be used is available. Children from 10 years old up can be used for picking the leaves."

Richard W. Bayliss, 84, well known Bourbon county farmer, died in a Lexington hospital after a short illness.

Weather conditions for the next two months as predicted favor the farmer and growing crops, it is said, and prospects are good for even better crops next year if such could be the case.

Louisville police raided 15 crap games in one trip, which is not bad for the city of Louisville.

## FEDERAL GRAND JURY IN SESSION

**Avalanche of Business Confronts Body—Report May Be Made Late Tuesday**

One of the questions regarding the remainder of the session of the federal court is the number of cases resulting from the session of the grand jury. There are more than two score of cases to be investigated.

District Prosecuting Attorney Charles Fennell, who has been present since the first of the week, stated there was one of the largest "batches of investigations" in the history of the local court, and the task before the jurors is an extensive one. However, it is believed the first report will be made late Tuesday and productive of a number of indictments being returned.

Whisky cases, it is said, predominate; in fact, this represents the bulk of the business with the jurors at this time, and almost every locality in this district is represented. The attendance at the meetings Tuesday was equally as great, if not more so than Monday. The number of witnesses summoned is out of the ordinary. Another unusual phase of the situation is the fact that very few defendants are accompanied by officers, all practically having been able to give bond. There are men charged with the most serious offenses regarding whisky at liberty, and many are accompanied by one from one to three attorneys.

The Moore distillery case at VanArsdall, in Mercer county, which has furnished a number of witnesses, is known to be one of the matters being given attention upon the part of the grand jury during the early stages, and it is expected this will terminate by the middle of the week. Judge Cochran has expressed a desire that these witnesses be examined and the result be brought to his attention as soon as possible. This work was started Tuesday morning.

The jurors, headed by a Richmond man, are as follows: E. L. Cobb, foreman, Richmond; R. M. Sparks, W. T. McGuire, Ben King, W. B. Wilson, Wesley Bourne, W. H. Hoover, R. C. Dudderar, M. F. Enright, John W. Scott, John F. Lackey, J. A. Arthur, D. B. Blackford, J. H. Boone, J. M. Haden, George Conley.

## ANOTHER COLYER ELECTED SHERIFF

News has just been received here from far-off Torrington, Wyoming, of one Democratic victory in a county usually strongly Republican, in which a former Madison county young man played a very prominent part. It was the election as sheriff of Oliver J. Colyer, son of Mr. and Mrs. C. E. Colyer. The father is a nephew of Messrs. H. H. and R. W. Colyer, of this city, the former of whom served as sheriff of Madison county once for four years, and the latter as deputy sheriff for eight years. Another uncle, D. A. Colyer, served as sheriff of Bates county, Missouri, so it would not seem unusual for one of this popular family to win office wherever he goes after it. The pretty thing about it, though, was the fact that young Colyer overthrew a large Republican majority and defeated one of the most prominent Republican politicians in that section, thus demonstrating his personal popularity among the people where he lives, and who know him best.

## RICHMOND MAY BE IN ANOTHER LEAGUE

**If Local Fans Evince Enough Interest To Subscribe To Sum To Have A Team**

Richmond is being "left out" by base ball men on the proposition to revive the old Blue Grass League next season. John A. Spinney, the well known sporting expert of Cincinnati, has written M. C. Kellogg here, on the subject, and those to whom Mr. Kellogg has mentioned the subject, express themselves as willing to contribute toward a team in Richmond in the event that the league is reorganized. A number of well known men have suggested that some well known men like Frank Barnett, who has the confidence of all, see what can be done toward securing a substantial sum by subscription for the purpose of backing a team here. The letter from Mr. Spinney to Mr. Kellogg will be of interest and follows:

Cincinnati, Ohio, Nov. 5, 1920. Kellogg Grocery Co., Richmond, Ky. My Dear Mr. Kellogg: I am taking the liberty of writing you in regard to a baseball meeting that is to be held at the Phoenix hotel on the night of November 15, and would be pleased to hear from you in reference to attending same or having some one to represent Richmond.

Possibly you have not taken much interest in the game since the old Blue Grass league disbanded, and do not realize there is a big boom on in the smaller towns throughout the country, and it is for this reason that several gentlemen from Winchester, Lexington and Nicholasville have requested me to use my best efforts to try to reorganize the Blue Grass league for next year, and knowing that you have always taken a great interest in the game in the past, hope you will be able to attend this meeting on the 15th inst.

There is some talk of consolidating the K. I. T. league with four of the old blue grass towns, such as Maysville, Winchester and Lexington. Ashland is also to be added, but it is my opinion that the railroad jumps would be too expensive in a class D league, but this matter will be brought up at the meeting.

Thanking you for any interest you may take in the above, and hoping to hear from you at an early date, I remain, Very truly yours,

JOHN A. SPINNEY.

## LOUISVILLE LEADING NATION IN HOMICIDE

Louisville, Ky., Nov. 9.—Louisville's record of nineteen homicides yearly for every 100,000 of population, established during 1917 and 1918, exceeds that of the country as a whole by about 250 per cent, according to statistics obtained from the census bureau.

## NO CONTEST SEEN IN BECKHAM RACE

While questioning the large majorities given Richard P. Ernst, republican Senator-elect, by 11th district counties, enabling him to emerge victorious in his race with J. C. W. Beckham, no contest over Tuesday's election was expected by democratic leaders, says the Louisville Times.

They pointed out that in the event of a contest nothing would be tried before a republican Senator.

They reiterated charges made by John L. Gray, Democratic State Campaign Chairman, that majorities obtained for Mr. Ernst in Eastern Kentucky counties were obtained through "monumental frauds" but it is the general opinion that nothing can be done to offset the frauds.

It is believed by many that Mr. Beckham will congratulate Mr. Ernst on his "victory" within a few days, thus ending the barrage of charges and counter-charges. Prosecution in federal court, some democrats say, might go a long way to breaking up the practice of holding back returns in the mountains, but it will not gain for Senator Beckham seat in the Senate.

## FLOUR DROPS TO PRE-WAR PRICES

Minneapolis, Minn., Nov. 9.—Four prices today continued their downward slide and reached what millers said were pre-war prices. At one large mill here family patent flour declined 40 cents a barrel to a new low price of \$10. This quotation was for car lots in 98 pound cotton sacks.

## Lower Prices Here, Too

New York, Nov. 9.—American and Algonquin percale prices have been cut from season's 30 cents a yard basis to 13 1-2 cent basis by M. C. D. Borden & Sons and the Algonquin Printing Company, it was announced here today. This quotation is 1 1-2 cents a yard lower than the 15 cent basis named by Edward Converse & Company last October 18.

Standard prints were priced for the new season at 12 1-2 cents a yard, a drop from 23 cents. Hereafter the goods are to be sold without protection or price guarantee.

New prices were named on over all denims by the representatives of the largest producers located at Greensboro, N. C. For 220 denims, white back, 25 cents now is asked, and for 240's double and twist goods, 21 1-2 cents.

During the furore of speculation in second hand the price of 220's reached 57 cents a yard, but the agents did not ask at any time in excess of 44 cents for the grade repriced today, it was stated.

## I. O. O. F. MEETING AT LEXINGTON

Fully one thousand delegates from all sections of Kentucky are expected in Lexington to attend the I. O. O. F. Grand Lodge meeting, which will convene on November 15, 16 and 17.

The general committee on arrangements for entertaining the visiting Odd Fellows and their ladies met Friday night and practically completed all the details, which were embodied in the general program. The various committees reported everything progressing finely and they expect to the entertainment feature of the convention one of the most attractive ever given by the Lexington Odd Fellows.

J. R. Smith is the general chairman and Wm. L. Lakin secretary. Following are the chairmen of the various committees: Housing, F. C. Foxworth; music, E. O. Kidd; entertainment, A. J. Reed; badge, A. C. Phillips; press, Roy Forman; meeting place, R. D. McMichael; parade, E. L. Bealart; information bureau, H. S. McCoy; special entertainment, I. O. O. F. Home, J. R. Smith; transportation, C. S. Moore; reception, J. R. Smith; finance, A. K. Hynes.

## ANNUAL MEETING BAPTISTS OF KY.

**Largest Religious Gathering of State At Owensboro, Nov. 15 to 18, Inclusive**

The eighty-third annual meeting of the General Association of Kentucky Baptists will be held in Owensboro at the Third Baptist church November 15, 16, 17 and 18. This is the largest religious gathering in the state of Kentucky and this meeting will be one of the most important in the history of Kentucky Baptists as at this time the report of \$75,000,000 Southern campaign will be made and the program for its partial expenditure during the next year will be outlined.

The General Association of Kentucky has 1886 churches on its roll and the meeting will bring more than 600 ministers and laymen as messengers. They will be entertained by Owensboro and Daviess county Baptists, who will give them supper, breakfast and lodging. Dinner will be served at all of the churches. B. F. Sier has been named chairman of the entertainment committee which will have charge of the big task of seeing that all delegates are entertained.

A preliminary pastors' conference will be held beginning at 9 a. m. on Tuesday, November 15, and the association will open Tuesday night with the moderator, the Rev. W. M. Stallings, of Creswood, presiding. The annual sermon will be delivered by Dr. J. T. McGlothlin, pastor of the First Baptist church of Frankfort.

The organization of the association will be effected Wednesday morning at 9 o'clock with the election of a new moderator, the Rev. Stallings having served his full term. At 11 o'clock Wednesday morning, Dr. O. E. Bryan, general secretary of the association, will make the annual report, which is one of the most important parts of the program, relating as it does to the year's activities of nearly 2,000 churches.

The feature of the meeting however, to which all Kentucky Baptists are looking forward will be the report of the Southern Baptist \$75,000,000 campaign made during the winter of 1919 in which Kentucky Baptists led the south, and as a result Baptist ministers say the churches have been inspired to do better work and their gifts for benevolences have been increased greatly. Prof. John L. Hill, dean of Georgetown College, Georgetown, who contributed so largely to the success of the campaign, will make the report and tell of the plans for the expenditure of the large sum allotted for the coming year to be used in the spread of the Gospel at home and in foreign countries.

Prominent Baptists of the state and all parts of the south will appear on the program. All sessions will be held at the Third Baptist church beginning at 9 o'clock in the morning and continuing until 4 in the afternoon each day. At these meetings reports will be made of all activities in religious, educational and hospital work and of the orphans' home. The public will be welcomed to all services. An inspirational song service will begin at 7 p. m.

## RELIGIOUS CULT GAINING RECRUITS

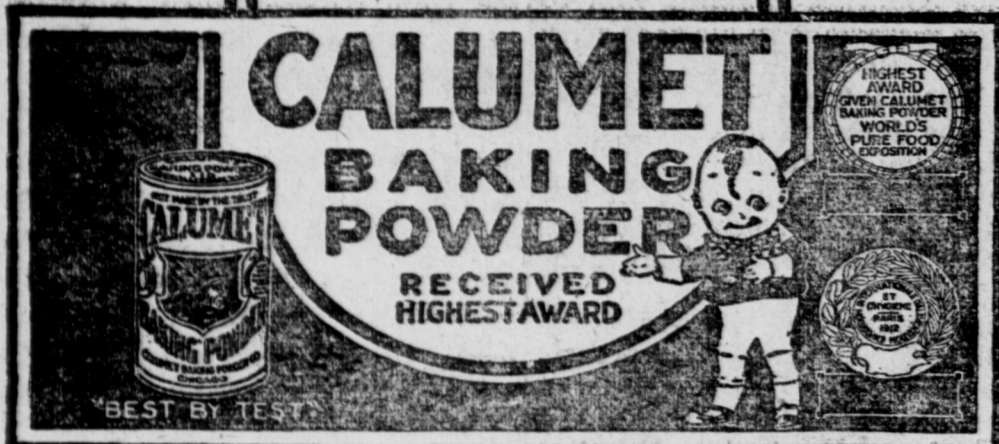

Representatives of the religious cult known as the Seven Day Adventists are becoming active in the city and there are a number of emissaries being sent here from other parts of the state. It is probable they will begin a series of meetings within a short time, since they are seeking a suitable location for a meeting. There are regular meetings being held in various parts of the city at private residences at this time. While not generally known, it is a fact that there are many who are now recognizing the lines drawn by this belief, and are observing the days accordingly. It is said there have been many recruits added during the last ten days. Many of those embracing this belief are said to have decided to observe the regular seven day calendar and to be preparing to make their arrangements accordingly.

#### Need "Just a Little Bit"

Poverty and the village fool, both essentials in metropolitan cities of the smallest hamlet, are apparently inevitable. Both are to be found in the city of Richmond, and while some are contemplating expensive presents for Christmas, others are planning a way in which to secure a pair of shoes or a dress with which to make a child presentable at school. Travel is not necessary to find both elements, and from the standpoint of the humanitarian, there is much of interest with in the confines of Richmond, as well as elsewhere, if one is disposed to seek it out.

Approaching cold weather is not worrying some in this city—for they are now battling with propositions that tax every resource, and yet some of the children are not in school.

A bird's eye view is easily gained. In one portion of the city there was found a woman bending over a wash-tub. She had as company a number of small children, all bare of foot. She perspiring and curiously listened and was all attention when questioned regarding the absence of two little children from school.

"Jim's not gettin' what he used to, and we was thinkin' of movin', but I guess it would be the same every place else," said the forlorn and industrious mother, as she explained there had been sickness in the family, or "everything would have been all right." After inquiring concernedly if the visitor was an officer, and being assured he was not, she asked the kiddies "what they said" when they reached out for a quantity of candy tendered them.

"It's the first candy since last Christmas," replied the little blue-eyed tot, who said she was going to school next year or the next, sure.

Less than \$2 was sufficient to get material for a dress, all that was needed to start the eldest girl to school, after which she said she believed she could make it herself, since she "had nine washings all together."

Nine washings, ten with their own, and five little children seemed a reasonable excuse for the untidiness of the children. The little girl will start to school next-week. She has not the books, but will get them.

Five places of this character, with environments all but pleasing, and one can see what a little clothing or money will do in time to come for children who are now handicapped by "just a little bit."

Investigation among the school instructors, members of the school board and others in a position to know, viz., members of the Salvation Army and other benevolent workers, corroborates statements to the effect that the are children out of school in the city for the lack of "just a little bit."

#### Democracy Not Dead

Talk of a new party to take the place of the Democratic party is bosh, pure and simple. We know a lot of yell-dog Democrats who would go over bodily to the G. O. P. before they would follow some new-fangled hyphenate lead by W. J. Bryan or some other traitor in the recent battle of the ballots. McAdoo said truly the other day:

"What the country imperatively needs now is subsidence of the passions and hatreds engendered by the war and the partisan political appeals that have followed. The country is sick of political slanders and controversies. It wants domestic as well as international peace, and it wants restoration of that fine spirit of co-operation which made America invincible in war. We face domestic and international problems of great gravity. The only way to solve them is thru co-creation. The highest duty of the leaders of both parties is, therefore, to promote better feeling among all classes of our people, to refrain from

unworthy appeals to class and racial prejudices and to bring to bear upon our serious problems that dispassionate and intelligent consideration, thru which alone there is promise of genuine public service.

"The Democratic party has suffered a severe but not disastrous defeat. It is far from dead; it is not even seriously wounded.

"Thruout our history overwhelming political reverses have been followed by extraordinary political recoveries. So long as the Democratic party is true to its mission of service to the common people it will live. What we must do now is to build up and strengthen the party organization, not in the interest of any individual or group or faction, but for the course of Democracy itself, and, above all, for service of country."

#### Two Big Stills Raided Over In Powell County

Reports of raids made in Powell county by prohibition agents Neal Guilfoyle and J. T. Hanlon, of Lexington, show the officers raided two illicit stills, destroyed a large quantity of beer and supplies and arrested one man, charged with operating a still and another on a charge of transporting whisky.

The larger of the two stills raided was on Cane Creek, Powell county. The operators had evidently been informed of the arrival of the officers in that section, as the worms, kettles, and all valuable parts of the still had been removed when the officers found it, they said. The fire was still burning in the furnace, however, and 300 gallons of beer and other supplies indicated that it had been in operation only a short time be-

DR. W. B. CALDWELL TODAY  
 Born Shelbyville, Mo., March 27, 1839  
 Began the manufacture of his famous prescription in 1892

Founder of Dr. Caldwell's Syrup Pepsin, the largest selling liquid laxative in the world, long past Biblical old age, but hale and hearty—Still sees patients daily—Wonderful achievement of a "country doctor."

WHEN I started to practice medicine, back in 1875, there were no pills or tablets or salt waters for the relief of constipation, and no artificial remedies made from coal tar.

The prescription for constipation that I used early in my practice, and which I put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid remedy, and I have never had reason to change it. I intended it for women, children and elderly people, and these need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

I am gratified to say that under successful management my prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that over eight million bottles were sold by druggists last year proves that it has won the confidence of mothers whose chief interest is the health of their children.

It is particularly pleasing to me to know that the biggest half of those eight million bottles were bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for grownups. The price of a bottle holding 50 average treatments is sixty cents; such a bottle will last a family several months.

I have never made a secret of what is in Dr. Caldwell's Syrup Pepsin. It is a compound of Egyptian Senna and other simple laxative herbs with pepsin and pleasant-tasting aromatics. These ingredients are endorsed in the U. S.

**TRY IT FREE**

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 513 Washington Street, Monticello, Illinois. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

#### Extra Cost About \$15,000

The extra cost to the city of the street paving as a result of the cemetery and federal building frontage is about \$15,000, instead of \$150,000, as stated in a report of the city council Friday, thru a typographical error. The federal building front, however, it is believed, will be later paid by the government.

#### Rabbits In One Week

Next Monday morning, if you have a license, you will be permitted to shoot rabbits. Hungarian pheasants, said to be propagating rapidly in this state, will not be harmed within the law until the year 1924, when it is believed that game will be plentiful. The rabbit season, one week away, is being eagerly awaited by many who are planning to take to the field.

The American Legion will have a minstrel show that promises to be a hummer, should all of the contemplated plans be carried out, since it will be elaborate in the extreme.

#### A Medicine of Merit

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills. ### RUSSIAN FACTS

BY ILYA TOLSTOY

Count Ilya Tolstoy lectured Monday at the Caldwell auditorium as the second number of the city school lyceum course. His subject was, "The Truth About Russia." He said that bolshevism would finally be the cause of its own undoing; that the inflated currency of the country was such that it takes two basketsful of money to purchase enough food for a meal. He said that a pound of butter is worth \$3,000, a suit of clothes \$20,000 and a second-hand pair of shoes \$15,000. The speaker showed that bolshevism had such a foothold because it took root in the organized class in Russia, which is the laboring class.

The intellectuals and the peasants are not organized. Both of the latter are the enemies of bolshevism. The laboring class in Russia is a very ignorant class, having no telephones, newspapers and no schools. Consequently the government is in the hands of a class to which the lowest instincts appeal. Bolshevism holds its power because it yet has control of the army. Count Tolstoy thinks the day is not far distant when the three bitter enemies of bolshevism will crush it, because these enemies represent the three strongest elements in Russian life. They are General Wrangel, with his army operating in the south; the anarchistic class and the peasant class. Famine stalks abroad in Russia today. Only one train a week runs between Petrograd and Moscow, which are the New York and Chicago of Russia.

The speaker closed with a sketch of Count Leo Tolstoy's religious experience. He graphically portrayed how his father groped for years and finally emerged with a triumphant faith in Jesus Christ.

**A Good Cough Remedy for Children**  
Mrs. J. W. Phillips, Redon, Ga., phoned to J. M. Floyd, the merchant there, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently, and that it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectoration easy and soon frees the system of the cold.

### GIRL SLAIN BY REJECTED SUITOR

St. Louis, Mo., Nov. 9.—Edna Ellis, the 18-year-old typist whose body was found with the throat slashed in a vacant lot near her home here, was killed by Albert Ellis, 21 years old, a rejected suitor, according to signed confessions made to the police by Ellis.

According to his alleged confession he intended to commit suicide, but the blade of the razor he used broke as he slashed the throat of his victim the third time.

Ellis, who is an electrician, admitted the killing only after hours of grilling, according to the police. He was arrested Saturday morning on information furnished by the mother of the slain girl. She said Ellis, who formerly lived in their home, threatened her daughter for breaking off their engagement after a quarrel.

**Only a Cold**  
Are you ill? Is often answered—"Oh! it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn a common cold is a matter not to be trifled with, that some of the most serious diseases start from a cold. As soon as the first indication of a cold appear take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

There will be a grain conference at Washington on November 15, at which there will be a re-establishment of prices, it is said, if such can be effected. It is not stated in what direction the "re-establishment" will operate.

### MANHOLES COMPLETED

The work of finishing the manholes at the various crossings in order that the water pipe valves may be reached and taken care of, has been finished and there will be no further molestation of the uptown streets, it is believed. The work is progressing rapidly on East Main street and will be finished within a short time if favorable weather prevails.

### GET READY FOR FRAY

Members of the American Legion football team are preparing for the fray on Thursday afternoon when the first game of the season, and, in fact, the first game for the team, will be played with the Berea team. The local players have been in good condition for some time, having had steady practice, and they are not afraid of their opponents.

Shorty gets an earful!

Friday

Howdy from New Orleans, PETE!

Say, old clock, you've got the time—maybe you'd like to hear this one! As we were rolling into New Orleans yesterday one of the men in the club car was recounting his cigarette experiences; how he finally pulled a trick on his luck and got set right!

"Well, I've had my cigarette lesson", continued the traveller, "I went up and down the line on cigarettes until I got hold of Camels and got deep into their quality and mildness and delightful flavor! There never was a blend such as Camels combination of choice Turkish and choice Domestic tobaccos! I'll say it—Camels taught me what a cigarette should be and they'll teach any man who smokes!" Thinks I to myself — "Sic 'em, judge, every word you spill is a sentence!"

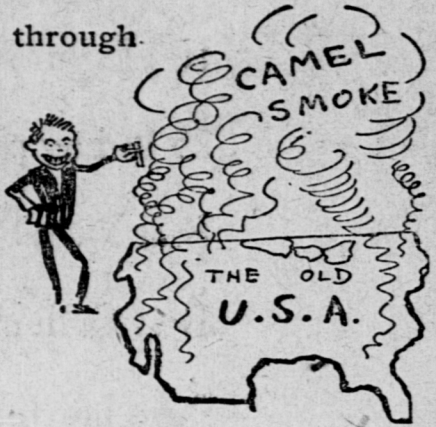

Now, Pete, that's the kind of Camel thanksgiving stuff you get North, East, South, West and through the middle! That's all as true as that little sheep will wag their tails!

I did some tall thinking as I browsed through the quaint old French quarter this evening—how universal the appeal of Camel cigarettes really is! Figure the travelling I've done and the people I've met — each city different from the other — AND Camels have been the ONE cigarette to be found everywhere—and the cigarette most smoked at each point! Pete, old backstop, it's wonderful the way smokers are sliding home to Camels!

Dallas, Texas, for me!  
Yours

#### TOO MUCH HAZING

Washington, Nov. 9.—Following the most disturbing series of hazing episodes and other breaches of discipline known at Annapolis in many years, it has been announced that Rear Admiral Archibald H. Seales will be succeeded as superintendent of the naval academy by Admiral Wilson, now commander of the Atlantic fleet. Saturday, it was stated, two cadets were dismissed for drunkenness and investigations are still in progress. At one time no fewer than five courts of inquiry were in progress. Admiral Wilson is one of the most distinguished as well as one of the strictest disciplinarians in the navy.

#### AUTUMN RACING WILL CLOSE NEXT SATURDAY

Louisville, Ky., Nov. 9.—Kentucky's most brilliant autumn racing season will come to an end next Saturday afternoon with the running at Churchill Downs of the Louisville cup, a handicap over the two-mile route, and the Goldenrod Handicap, an event for 2-year-olds, at seven furlongs. Each of these stakes will have an added value of \$5,000, and they will serve as a fitting climax to a grand year of thoroughbred sport.

Attorneys C. C. Bagby, of Danville, and J. S. Owsley, of Stanford, are here for federal court.

#### MANY PURCHASE THEIR OWN COAL

Many residents of the city are buying their coal, but not from the local dealers, it is claimed, and there are numerous smaller shipments coming to the city. One local dealer stated there was considerable coal being bought this way, and he was not one which jealous of the business, owing to the difficulty in procuring the product, and another stated he believed he would go out of business unless conditions changed. There is the same difficulty being experienced by coal dealers as that of the automobile dealers. There is a demand and little supply for it. The profit in coal, local men state, is not worth the trouble, in some instances, and the fact that they have to spend so much and work so hard to get it, makes the business not at all satisfactory.

"Then," said one of them, "when we are able to get coal, many of the consumers think we are robbing them when we ask what we have to, even to come out on the deal with any profit whatever."

## WOMEN RAISING CHICKENS; REWARD

R. I. R. Association Elects Officers At Bazaar Meeting For Coming Year

The R. I. R. Association of Madison county is progressing in a manner indicating great things in the future, and the near future at that, since the operations of the members during the past year have been more extensive than ever before, and the work is being extended every month.

The reports from officers at the last meeting presented some surprises to even those who have been affiliated with the association for some time. The number of new members is satisfactory, showing there is an added interest in the association. One of the features of the association is the production of better grades of eggs, resulting in good chickens. There were some rapid strides made during the past year, in that a number of prizes were awarded at the recent Kentucky state fair and a number of premiums individually. This showing indicates the betterment of the stock, since a greater number of honors than usual were pulled down at the state show.

Mrs. Luther Todd, Mrs. James Gentry and Mrs. John L. Greene were among the individual winners on stock, and when it comes to producing the best in the state the association must be given consideration. There were more than 5,000 eggs distributed through the efforts of the association members during the past year, and it is believed this number will be greatly increased another year.

Officers elected for the coming year at the meeting held at Berea were as follows:

Mrs. Luther Todd, president; Mrs. James Gentry, vice president; Mrs. John L. Greene, secretary and treasurer.

## RECORD CROPS OF CORN AND TOBACCO

Washington, Nov. 9.—A record crop of corn, exceeding the previous largest crop by 75,000,000 bushels, was announced today by the Department of Agriculture, in its preliminary estimate placing production this year at 3,199,192,000 bushels.

Tobacco production this year also established a record, with a total output of 1,476,444,000 pounds, or 87,000,000 pounds more than last year's record crop.

Corn lost 17,000,000 bushels during the month, tobacco was 2,000,000 pounds less than forecast a month ago, and there was a loss of 1,000,000 bushels in the buckwheat crop.

Increases are shown for a number of crops, including potatoes, 7,000,000 bushels; sweet potatoes, 2,000,000, and apples, 8,000,000 bushels.

The report on state tax for gasoline indicates a big sale again last month. There has been an increase monthly for four months, with the exception of the month of September.

Four bandits held up and robbed a messengers of \$20,000 at Detroit.

#### Commissioner's Sale

William Browning, Plaintiff, vs. Rachel Ball, &c., Defendants. Pursuant to judgment and order of sale entered in the above styled action by the Madison Circuit Court at its October term, 1920, the undersigned Commissioner will expose to public sale to the highest and best bidder on the premises at the hour of 10:30 o'clock a. m., on Thursday, November 11, 1920 the following described property, viz.:

A certain tract or parcel of land about one mile east of Paint Lick, Ky., lying in Madison and Garrard counties, bounded and described as follows: The tract of land is known as the lower part of the old Salem Wallace mill place, and adjoining the lands of Sam G. Morgan, Daniel Browning and others, and containing 83 9-10 acres. This is a fine tract of land in a high state of cultivation and splendid neighborhood. For more complete description of same the pleadings and exhibits are referred to in this case and made a part hereof.

TERMS—Said property will be sold on a credit of six months, the purchaser being required to execute sale bonds with approved security, payable to the Commissioner, and bearing 6 per cent interest from day of sale until paid, with a lien retained on the land to secure the payment of said bond and interest.

## WANT PICTURES OF LOCAL TEACHERS

Look pleasant, please; just a moment there!

That's about what you will hear at the opening of the next monthly meeting of the Madison county school teachers, for they are going to have their pictures taken—all of them in the county if they will come, for the picture is wanted at the offices at the state headquarters and it has been promised.

It was the desire to have the picture some time ago, but conditions were such that it was never made. It has been decided to have it at the next meeting and Superintendent Edwards said the photographer would get busy about the hour of 11:30. There is a special demand for all of the instructors of the county to be present, since this is the rules, anyway, and there will be an address by State Superintendent George Colvin, together with other officials.

#### Feeling of Centre Against Georgia Tech

Atlanta, Ga., Nov. 8.—If newspaper stories purporting to quote members of the Centre College football team, criticising Georgia Tech's playing in the recent football game here, represent the feeling of Centre College, there will be no football game between two teams next year, according to a telegram from Georgia Tech, Atlanta, Director Crenshaw, to Prof. Frank Rainey, of the faculty and chairman of athletics, at Centre College. He added if they do not represent the real attitude Tech would be glad to hold open a 1921 date.

#### Trouble Is Brewing Over Recent Shooting

Middlesboro, Ky., Nov. 6.—W. J. Barnes, 45, of Louisville, principal of the Middlesboro High School until last Tuesday, who was shot by Adolphus Oaks, wholesale grocer, still lives. The bullet took effect just over the heart and lodged in the spinal column. Barnes is in the hospital. One side is paralyzed and very little hope for his recovery is entertained.

The trouble grew out of Barnes' correcting Oaks' sister, Belma, 14 years old, concerning which there are conflicting reports. Oaks gave himself up and was placed in jail. His brother, Harry Oaks, is City Commissioner and has been active in politics for a number of years.

School was closed today and a mass meeting of citizens was to be held at 2 o'clock this afternoon.

When the boys of the high school refused to enter the classroom Tuesday morning, following the alleged whipping of the Oaks girl, Barnes tendered his resignation, which was accepted, and Dr. John A. Gray, of New York, pastor of the Presbyterian church here, was elected his successor.

#### TRUANT OFFICER BUSY: WILL UPHOLD NEW LAW

Monday morning Truant Officer W. A. Johnson started for Valley View, where he is looking after some truant students, and it is probable they will be brought before the county court, as have a number of others recently. It is the intention of the officer to prosecute all violators of the compulsory educational laws, and he has made a good start. Several have been hauled before the court, and preparations are being made to assess fines where there are convictions in any flagrant violations henceforth.

## Constipation Causes Serious Ills

If you are its victim, try strengthening your digestive and eliminative organs with Nature's Remedy—it's better than laxatives.

#### NR Today—Keeps the Doctor Away

One of the world's greatest scientists says that more than 30% of all human life can be traced directly or indirectly to constipation. How many suffer from this?

Most of them continually dose themselves with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. To do that is a mistake. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that constant dosing will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant, easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out.

And NR does this without a sign of griping, pain or unpleasantness. It works gently, but promptly and thoroughly. In a few days you notice the real result. You begin to feel that you are living again, with new strength, new energy, vim and pep and ginger. You soon find your bowels acting regularly without help. Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

**Carolina Lady Got So She Could Just Drag—"Cardui Built Me Up," She Declares.**

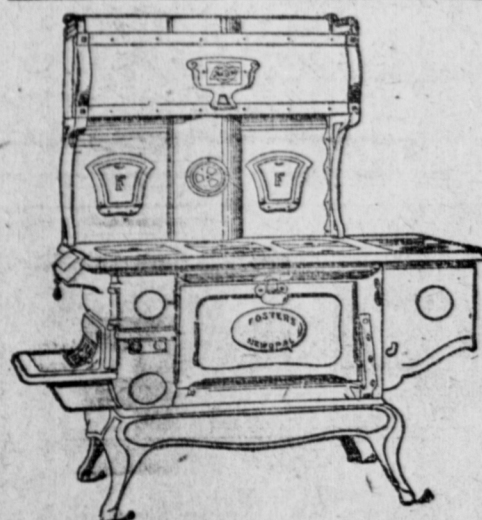

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggy—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag. I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good. "Cardui built me up as no other tonic ever did. "I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui." Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. Mabe describes. At your druggist's.

## WEATHER MAN IS NOT FOOLING THEM

There is said to be an unprecedented demand for stoves. The weather man is not putting anything over on the wise ones by presenting the fascinating weather at this season of the year, for the general opinion is that someone will have to pay the fiddler later on, and many are they who are preparing for this. They are buying stoves.

"Buying a better grade of stoves, too," said a local dealer, "than they have ever bought before." He stated that some of the residents of the city would surprise all by the quality they bought. Some of the best and most attractive stoves to be obtained are being placed in some very apparently humble homes. The demand, surprising as it may seem, has really been intensified by the prevailing weather, which, it is naturally assumed, will not continue for long. The stove business is said to have never been better than at the present time.

## OPERATIONS ARE BEING DOUBLED

Although the U. S. hospital unit has been in effect less than a month, there have been more than a score of ex-service men operated, besides those who have been treated medically, and the record at the institution is attracting the attention of many physicians and surgeons especially.

Dr. O. F. Hume, who is at the head of the surgical department, reports there will be an additional number of men there within a short time to be operated upon. There have been no fatalities. All have recovered thus far, and with the exception of the two last veterans operated on, all are out again apparently much improved. This is but feature of the operating there, other individuals being given attention almost daily. The work of the institution is such as to tax the capacity of both the hospital and somewhat limited staff. The workers are giving up their rooms often to accommodate an unfortunate who arrives for succor. There is no complaint, just work. This seems to be the slogan.

## SHOULD SUPPORT FOOTBALL GAME

Due to plans for the celebration of Armistice Day in Berea, there has been some question as to whether or not the American Legion football team of that place would be able to meet the local post on the Normal school gridiron November 11. Word was received Monday morning from Commander Griffith that his team would be here, although it interfered with his plans there.

Richmond is the proper place for such a game, it being the county seat, and the local people should turn out loyally to support the home team and help the boys to secure club rooms. There will be an admission charge of 50 cents.

The athletic management of the local post is alive and will furnish the city with athletic contests throughout the year if properly supported. You owe it to the boys and the community to support them.

## CUSACK

School is progressing nicely, with Misses Willoughby and Price as the teachers.

Mr. and Mrs. J. M. Williams entertained a number of friends Thursday night with a candy party in honor of Miss Virginia Cotton, of Nicholasville, who has been spending a few days with Miss Virgie Gullette. Those present were: Miss Mary Roberts, Miss Lucy Roberts, Mr. and Mrs. Andrew Cotton and son, Lloyd; Miss Opal Cotton; Mrs. Ella Chaney; Miss Bertha Chaney; Nellie Mae Benton; Harrison Gullette and family; Mrs. Lyman Roberts; Mrs. Susie Benton; Mr. and Mrs. Ellard Howard; Earl Roberts; Kash Roberts; Henry and Hugh Lathron; Arthur Ranfro; Waldon Chaney; Edgar Benton and Earl Tudor. Those who won prizes in the games were Mary Robert and Virgie Gullette.

Girls at Evanston, Ill., have abandoned the diaphanous skirts and low-necked dresses. Next thing they will be wearing their ears on the outside.

If you want it correctly, six weeks from Saturday will be Christmas, and—begin your Christmas shopping early.

## HARRODSBURG CATTLE SALES

J. D. Black, of Harrodsburg, shipped 85 1,000-pound cattle to Cincinnati Saturday which were bought from different parties at from 8 to 10 cents. He also shipped 20 calves for which he paid from 10 to 11 cents.

J. T. Veatch sold the past week to A. T. Ruby, of Portland, Ore., three jacks for \$960. W. L. Graham also sold to the same party two jacks for \$800.

Auctioneer J. J. McGinnis, who is always an efficient man on the job court days, reports there were about 200 head of cattle on the market Monday. Fifteen head of cattle sold for \$27 each; 14 head at \$12 each; 12 small calves went at \$21 a head; 20 good ewes sold for \$13.50 each; 17 ewes, not so good, sold for \$7.50 a head; 11 cows at from \$60 to \$75 each; mules in pairs, \$275; mules, single \$125; mule colts, \$35 to \$65.

At the Farmers Sale Stable court day was a very dull one for that lively business center. Everybody was talking politics and not sales. About 21 head of horses and mules changed hands there. The mules ranged from \$75 to \$125 and the horses from \$35 to \$90.

## Mrs. Griggs Recovering

Mrs. Joe T. Griggs, who has been at the Pattie A. Clay Infirmary for some time where she underwent a recent operation, is recovering as well as could be expected, and according to the statement of attending physicians, will be able to be out within a period of two weeks.

## MAY ORGANIZE WOMEN'S BRANCH

American Legion To Be Up-to-date In Every Detail—Contemplate Busy Future

The woman's auxiliary to the local post of the American Legion is one of the probabilities of the near future, after the routine work gets under way and the new headquarters are secured and the future and permanent home assured, furnished, etc. The movement is becoming prevalent over the country and there is not the least intention upon the part of the members of the Richmond legion to be out of date. It is expected there will be a movement looking toward the solicitation of the ladies later and there will be a norganization among them that will render the local organization one of unusual importance and interest. The mothers, sisters and daughters of the members are eligible to membership, and in some localities there are extensive organizations being perfected, with the result that the routine life of the legion does not become dull, but is full of social life and the doubling of social affairs which render the winter months especially very enjoyable. There is such a large percentage of the membership that is transient that there are many visitors, many of whom are eligible to assist in impromptu entertainments, and the social diversions are found to be many and enjoyable. There are sick benefits and other features being connected with some of the posts that are making them among the foremost organizations of the kind in the country.

The local post contemplates a new home, with suitable furnishings, club rooms and other features that will add to the interest and enjoyment of the members, and the addition of the woman's auxiliary is being given serious consideration. It is sad there are many in this city and county who are eligible to membership and the canvass, which will be started within a few months, according to present plans, promises to result in a valuable and interesting additions to the future prospects of the local organization. The local post has a good membership and there is more and more interest being displayed each meeting, as well as new and entertaining features being injected. There will be committee for the new and special work and things look rosy for the young veterans who hope to soon be able to invite visitors to a new and comfortable home.

## PARTIAL ECLIPSE OF SUN WEDNESDAY

There will be partial eclipse of the sun Wednesday morning, November 10, visible all over Kentucky and visible in general in the Central and Northeastern portion of the United States.

For Lexington and vicinity the times of the eclipse will be as follows:

Eclipse begins Nov. 10, at 8:01 a. m., Central time.  
Middle of eclipse, 8:50 a. m., Central time.  
Eclipse ends 9:38 a. m. Central standard time.

The Northwestern limb of the sun will be eclipsed first as the moon passes over the sun's disc coming from the West, about one-half of the sun will be eclipsed at 8:50 a. m.

Eclipses of the sun and of the moon occur in pairs about fifteen days apart; a total eclipse of the moon took place on October 27, visible, however, only in the Western part of the United States.

The next total eclipse visible in the United States will occur Sept. 10, 1923, visible as total from California to Texas, and the next one after that January 24, 1925, visible as total from Eastern Canada and in Maine.

## WITH THE MOVIES

### Difficult Photography in "Tarzan"

Notable photographic effects were obtained by the cameramen who filmed "The Revenge of Tarzan," thrilling adventure story of Edgar Rice Burroughs, that comes to the local houses Thursday and Friday.

In the jungle episodes Tarzan is shown springing from tree to tree with the agility supposed to have been acquired by his upbringing in the forests. These flashes in tree-tops were taken from all angles and locations, including an airplane that hovered breathlessly near the tips of the trees.

Desert scenes afforded camera food, and, like all of that arid background, food that, improperly assimilated, might have brought on film indigestion. But, thanks to what must have been careful eyes on the lookout for flat-light, the desert footage is highly palatable.

Then there is the "water stuff." There are scenes made from every conceivable corner aboard a big liner; there are the incidents photographed in the lifeboats; there are the close-ups and long shots of such exciting moments as the fire on a yacht, the throwing overboard and the escape of Tarzan, and the vicissitudes of three other characters in their fight for life in mid-ocean.

On Board Harding's Special Train, Nov. 9.—At no time has it been the intention of President-elect Warren G. Harding to confer with President-elect Obregon, of Mexico, on his trip, or to have any representative of his do so.

Senator Harding, it is known, desires the most friendly relations with the republic south of the Rio Grande. Throughout his campaign he emphasized in many of his speeches a determination to pursue a firm but friendly course toward Mexico. He declared repeatedly that under his administration American lives and property would be protected, not only in Mexico, but wherever Americans go on legitimate missions.
